### What's special about CAT?

- **The DTM Track** - The DTM Track is to help you make the transition from being merely a "competent" speaker, to being an "advanced" speaker and ultimately to being what Toastmasters call a "Distinguished" speaker. We work with your home club to chart a course for your communication skills development, both in speaking skills and in fulfilling the requirements for your next awards.
- **The Contest Track** - We help you deliver powerful, impactful, and entertaining "contest-ready" speeches through specialized peer mentoring, rehearsal and active feedback focused on contest requirements.
- **Peer Mentoring** - We create small groups that meet every other month to review their speeches and growth together. The groups of three personally help each other meet their speaking goals.
- **Left-Brain Right-Brain Evaluation** - We evaluate on both technical and emotional aspects. Both are needed to impact and influence your audience.
